Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4,12,13,17,19,20 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Stewart, Jr (US 5,415,134).

Stewart, Jr discloses a temperature sensor 75 is connected to the engine 21 to sense the engine temperature particularly during idle and shut off positions. The temperature sensor 75 is also preferably electrically connected to the motor 70 so that if the temperature of the engine 21 exceeds a predetermined value, then the motor 70 is turned on and, in turn, operates the pump 30 and the fan 60 to continue the circulation of fluid from the engine 21 to the radiator 25. See col. 6, lines 10-20.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2,3,5-11,14-16,18 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stewart, Jr (US 5,415,134).

Art Unit: 3747

With regard to claims 2,3,5-11,14-16,18 and 22, the claimed subject matter is well known in the art. It would have been obvious to a person having ordinary skill in the art to employ hydraulic actuator as claimed in claim 2 in lieu of electrical actuator 70 as disclosed by Stewart, Jr.
